How to Facilitate Student-Centered Discussions

Monday, October 8, 2018
12:00 pm, Lab 4
Josefina Bittar, Dept. of Spanish & Portuguese

• How do I make students speak to each other?
• How do I make sure they stay on topic?
• How do I grade their participation?
• How do I select the discussion-material?
• How do I incorporate student-centered discussions in my syllabus?

In this workshop, I will address these questions by sharing my experience as a language and linguistics instructor with student-centered, in-class discussions. I will also encourage you instructors (of all fields!) to share your ideas about this teaching activity!

Light refreshments served!
