Effective methods of multimedia instruction in the foreign language classroom

Anna Shkireva, Teaching Assistant of Russian Department of Foreign Languages and Literatures

Monday, February 24, 2020
12:00 - 12:50 pm, Lab 2

This presentation will investigate methods of reducing cognitive load in working memory. This can be achieved with conscious awareness of effective multimedia instruction which can help to avoid cognitive overload problems and foster students’ learning.

Light refreshments will be served.
